

Issue 2: 1 February 2018

Business Continuity Plan

Introduction

Cook Foundation UK is committed to ensuring business continuity in the event of an unplanned crisis or incident. This document aims analyse events that could impact the business continuity of **Cook Foundation UK** and identify actions to be taken to mitigate and minimise the risk and exposure caused.

Scope

The policy applies to all employees directly employed by **Cook Foundation UK**, and to workers employed via agencies, contractors and Trustees.

Policy

Cook Foundation UK is committed to undertaking the required level of planning to ensure that business continuity is maximised in the event of an incident being identified and implementing the necessary actions to protect the safety and welfare of staff, visitors and the public.

Elements of Business Continuity

For the purposes of contingency planning, this plan is dealt with as follows:

- People loss of key staff or skills e.g. above normal levels of absenteeism due to illness
- **Premises** loss of access to premises due to serious incident including fire or flood
- Equipment Loss of critical systems e.g. ICT failure

People

Cook Foundation UK is a charity, constituted as a Charitable Trust by Deed dated 2nd July 1995 and was registered by the Charity Commission on 14th August 1995. The principal object of the charity is "The support of such charity or charities or for such charitable purpose or purposes as the Trustees in their absolute discretion think fit"

Premises

The nature of the business means that **Cook Foundation UK** has administrative offices in the UK.

Equipment

The use of cloud-based IT systems and tools by **Cook Foundation UK** reduces the likelihood of a catastrophic failure of systems and tools. By ensuring that the correct people have access to the right documentation and information and that backups are taken of critical information minimises any impact of such a failure.

Where it is necessary to keep specific files locally, for example a centre specific document, it is important to ensure all staff are aware of the location and have access to it in the absence of its creator.

Appendix A details the generic mitigations and activities that need to take place to ensure business continuity.

Appendix B details the centre specific details and action to be taken in the event of an incident. These may be different depending on the timescales involved and these should be identified accordingly. All enterprise centres will develop and communicate the Centre Specific actions required in the event of an incident being identified.

In the event of one of **Cook Foundation UK** premises being out of action for medium or long term, negotiations with partner organisations will commence to relocate to an alternative premises (if applicable).

Process for Activation

Upon identification of an incident, a decision will be made by the Business Continuity Team (BCT) to assess the severity and potential risks/ impact of the incident and to initiate the Business Continuity Plan.

Communication

This policy will be briefed to all staff on its introduction and thereafter included in the staff induction.

Testing the Plan

Site specific plans will be produced by Cook Foundation UK using Appendix B and reviewed annually as a minimum. Copies should also be held centrally.

Tests should be made to ensure the accuracy of the information contained within the site specific plans.

Review

This document is subject to an annual review unless there are any major changes in the workplace or legislation requiring more urgent consideration/ action.
